# conPEP – dynamic staff planning platform for the shop floor

## Key Facts

- In response to dynamic business environments, our staff planning tool was crafted to empower organizations with the flexibility to adapt quickly to changing personal capacities.
- With conPEP, an SAP add-on, we support shift leaders to streamline workforce management, eliminating inefficiencies and enhancing overall operational productivity

## **Benefits**

- Ergonomic, intuitive SAP UI5 interfaces
- Flexible rules for customization (colours, role icons, ...)
- Consideration of HR shift models
- Flexible error message handling
- Dashboard application with only display feature

#### **Functions**

- Calendar view for planning shift times of the operators
- Mass maintenance of operators
- Work Center assignment of operators
- Qualification check of operators during
  Work Center assignment
- Automatic calculation of the overall available capacity and update on PP Work Center
